RELEVANT EXPERIENCE

Medvive - Frontend Developer

August 2025 – January 2026

- Developed responsive client-facing user interface for a digital health platform connecting patients directly with licensed healthcare providers.
- Built secure user flows for patient onboarding, authentication, appointment scheduling, wallet and efficient state management.

CVSpan | Webbie - Frontend Developer

June 2024 – June 2025

- Contributed to the primary cross-functional product team, collaborating closely with UI/UX designers, and backend engineers.
- Developed responsive user interfaces for user authentication, customizable profile pages, dynamic view counts, and interactive likes and comments, while optimizing component performance and fixing layout edge cases.
- Integrated backend REST APIs to synchronize real-time user engagement metrics, interactions, uploads, and user session management.
- Participated in sprint planning, code and user interface reviews, user experience, and fixing UI edge-case bugs.
